Re: Resubdivision of Lots 54R and 55- Skyridge Subdivision; Request for
Approval of a Modified Water Pollution Abatement Plan; 31 Texas
Administrative Code (TAC) Section 313.3 (f)

Dear Mr. Lehr:

We have completed our review of the modified water pollution abatement plan submitted to the District 8 Office by Raymond Dietert on August 25, 1986. The original water pollution abatement plan for the 416-acre Skyridge Subdivision was approved by the Texas Department of Water Resources on August 29, 1984.

As outlined in the application, Lots 54R and 55, consisting of 26.52 acres will be resubdivided such that 4.00 acres will be added to Lot 54 R and, correspondingly, the size of Lot 55 will be reduced by 4.00 acres. Each of these lots remains in excess of 1.0 acre. This is a minor change which would not require approval of a modified water pollution abatement plan, according to the criteria outlined in 31 TAC Section 313.3 (f).

We do acknowledge the revised plat and appreciate your agent apprising the Commission of this change.

If you have any questions or need additional information, please contact Ms. Jeffee McAuley at (512) 226-3297 in San Antonio or Ms. Liska Mercer at (512) 463-7743 in Austin.

Sincerely,

Larry R. Soward

Larry R. Soward
Executive Director
